SPONSORS

Day One - Monday 8th December 2025

Time/Session	Plenary Session/Workshop	Remark
13:40 - 14:30	Plenary Session: Operational Resilience: Integrating Civil-Military Cooperation in Disaster Medicine and Emergency Response during Complex Crises Chairman/Lead Discussant: Prof. Roberto Mugavero - President, European Centre for Disaster Medicine	Discussant: Gen. Said Chenghriha Brig. Gen. D Allahare
	Description: This plenary session addresses operational resilience through the integration of disaster medicine and emergency response capabilities within civil-military cooperation frameworks, particularly during complex crises and challenging operational environments. The session will explore collaborative strategies, frontline medical interventions, crisis response mechanisms, and practical solutions to enhance interoperability between military forces, civilian first responders, and medical teams. By presenting recent case studies, best practices, and innovative training methodologies, participants will discuss current challenges, identify actionable approaches, and formulate strategic recommendations to strengthen collective preparedness and resilience.	
	Key Discussion Areas: - Civil military strategies for effective disaster medicine and crisis response - Best practices and lessons learned from recent complex emergencies - Advanced simulation-based training to enhance interoperability and readiness - Frontline medical intervention and integrated operational planning - Overcoming barriers to civil-military cooperation in complex environments - Future trends and strategic recommendations for operational resilience The session aims to foster robust dialogue, capture diverse expertise, and produce insightful recommendations for inclusion in the final session report.
